#### INTERNATIONAL SEARCH REPORT

International application No.

PCT/SE 2004/001952

## A. CLASSIFICATION OF SUBJECT MATTER

IPC7: H01Q 21/00, H04B 7/04
According to International Patent Classification (IPC) or to both national classification and IPC

#### B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

#### IPC7: H01Q, H04B

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

#### SE,DK,FI,NO classes as above

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

#### C. DOCUMENTS CONSIDERED TO BE RELEVANT

| Category* | Citation of document, with indication, where appropriate, of the relevant passages   | Relevant to claim No. |  |  |
|-----------|--|-----------------------|--|--|
| X         | KYRITSI, P, "MIMO capacity in free space and above perfect ground: theory and experimental results"  In: THE 13th IEEE INTERNATIONAL SYMPOSIUM ON PERSONAL, INDOOR AND MOBILE RADIO COMMUNICATIONS, 2002. 15-18 Sept 2002, Vol. 1, pages 182-186, INSPEC AN 7690963 see Chapter II and IV and Abstract, Introduction and Figures 1-2 | 1-77                  |  |  |
|           | <b></b>  |                       |  |  |

| X                                    | Further documents are listed in the continuation of Box   | С.   | X See patent family annex.   |  |  |
|--------------------------------------|---|--|--|--|--|
| *                                    | Special categories of cited documents:  | "T"  | later document published after the international filing date or priority   |  |  |
| "A"                                  | document defining the general state of the art which is not considered to be of particular relevance                                  |  | date and not in conflict with the application but cited to understand<br>the principle or theory underlying the invention  |  |  |
| "E"                                  | earlier application or patent but published on or after the international filing date   | "X"  | document of particular relevance: the claimed invention cannot be<br>considered novel or cannot be considered to involve an inventive                                      |  |  |
| "L"                                  | document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other |  | step when the document is taken alone  |  |  |
|                                      | special reason (as specified)   | "Y"  |  |  |  |
| "0"                                  | document referring to an oral disclosure, use, exhibition or other means  |  | considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art |  |  |
| "P"                                  | document published prior to the international filing date but later than<br>the priority date claimed                                 | *&*  | document member of the same patent family  |  |  |
| Dat                                  | e of the actual completion of the international search  | Date of mailing of the international search report |  |  |  |
| 18                                   | 8 March 2005  |  | 2 2 -03- 2005  |  |  |

# INTERNATIONAL SEARCH REPORT

International application No.
PCT/SE 2004/001952

| Box No. II   | Observations where co   | rtain claims were found unsearchable (Continuation of item 2 of first sheet)  |        |  |  |
|--|---|---|--------|--|--|
| This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons: |   |   |        |  |  |
| 1.   | laims Nos.:<br>ecause they relate to subje  | ct matter not required to be searched by this Authority, namely:  |        |  |  |
|  |   |   |        |  |  |
| L - 1  | Claims Nos.: 78 and pecause they relate to parts extent that no meaningful it   | 79<br>of the international application that do not comply with the prescribed requirements to such an<br>international search can be carried out, specifically: |        |  |  |
| Sinc   | e claim 78 i  | s characterized by an unspecified number of a plurality of devices in"  |        |  |  |
|  | •   |   | .      |  |  |
| 3.   | Claims Nos.:<br>because they are depender   | t claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).  |        |  |  |
| Box No. II   | Observations where  | nity of invention is lacking (Continuation of item 3 of first sheet)  |        |  |  |
| This Intern  | national Searching Author   | ty found multiple inventions in this international application, as follows:   |        |  |  |
|  | :   |   |        |  |  |
|  |   |   | . }    |  |  |
|  |   |   |        |  |  |
|  |   |   |        |  |  |
|  |   | ·   | }      |  |  |
|  | As all required additional  | search fees were timely paid by the applicant, this international search report covers all search   | able   |  |  |
|  | claims.   | 1 1 1 1 1 C. A.   | ent of |  |  |
| 2.   | As all searchable claims any additional fee.  | could be searched without effort justifying an additional fee, this Authority did not invite payme  |        |  |  |
| 3.   | God and the state of the state |   |        |  |  |
|  |   |   |        |  |  |
|  |   |   |        |  |  |
|  |   | ·   |        |  |  |
| ļ  |   |   |        |  |  |
| 4.   | No required additional s<br>restricted to the invention   | earch fees were timely paid by the applicant. Consequently, this international search report is a first mentioned in the claims; it is covered by claims Nos.:  |        |  |  |
|  |   |   |        |  |  |
| D1-  | on Protost  |   |        |  |  |
| Kemark   | on Protest  | The additional search fees were accompanied by the applicant's protest.   |        |  |  |
|  |   | No protest accompanied the payment of additional search fees.   |        |  |  |
